

International PhD Program in Molecular Cell Biology

The University of Tübingen has an open call for **9 fully funded PhD student positions**.

We are looking for highly motivated candidates holding a Master degree in biology, biochemistry, molecular medicine, cell biology, biophysics, or a similar program, to join our DFG funded Research Training Group (RTG)

MOMbrane: The multifaceted functions and dynamics of the mitochondrial outer membrane (MOM)

The aim of our RTG is to achieve comprehensive understanding of the structure, function, regulation, and biogenesis of the mitochondrial outer membrane. We employ a multidisciplinary approach including disease models, molecular cell biology, proteomics, biotechnology, and biophysics.

We offer:

- Highly interdisciplinary research
- Cutting-edge technologies
- Structured qualification program including workshops, retreats, soft-skill courses, internships, international co-operations, conferences and many more
- Salary E13 (65%) for at least 3 years

For additional information on our projects, activities and the application procedure, please have a look at our homepage

<https://www.mombrane.de/>

Deadline for applications: March 15, 2021.

Please send your applications to

grk2364-application@mnf.uni-tuebingen.de

Starting date: June to September 2021
